SUMMARY

Caution, this whole text is generated by ChatGPT :). I'm a passionate software engineer with a strong background in software development and entrepreneurship. Experienced in building scalable and reliable systems. Committed to continuous learning and innovation. My mother always said I'd make her proud; little did she know it would be by coding, not by becoming a doctor!

LANGUAGES

English Native Speaker

EDUCATION

Bachelor

Computer Science

Stanford University , 2008-09-01 – 2012-06-01

CEO & Lead Developer

Pied Piper | 2014-01-01 – Present

Founded and led Pied Piper, a technology startup focused on decentralized internet infrastructure. Developed groundbreaking compression algorithm that revolutionized data storage and transfer.

Stack: Python, JavaScript, React, Node.js, MongoDB, SQL

- Led the team to win TechCrunch Disrupt
- Raised \$X million in funding rounds
- Built a culture of innovation and collaboration

Software Engineer Intern

Hooli | 2013-06-01 – 2013-08-01

Internship as a software engineer at Hooli, a leading tech company. Worked on projects related to cloud computing and distributed systems.

Stack: Java, C++, Cloud Computing, Distributed Systems

- Collaborated with senior engineers on critical projects
- Gained hands-on experience with large-scale systems

Junior Developer

Aviato | 2012-09-01 – 2013-05-01

Worked as a junior developer at Aviato, a software development firm. Contributed to various projects and gained valuable experience in full-stack development.

Stack: Python, JavaScript, React, Node.js, MongoDB, SQL

- Developed responsive web applications
- Participated in code reviews and debugging sessions

Chief Pivot Officer

Hendricks' House of Pivots | 2011-06-01 – 2012-05-01

Founded Hendricks' House of Pivots, a consultancy specializing in advising startups on how to pivot their business models. Master of pivots, I can turn any failed startup into a unicorn!

Stack: Pivot, Pivot, Pivot, Pivot, Coffee

- Successfully pivoted 20+ startups
- Expert in thinking outside the box

Chief Technology Janitor

Bachmanity | 2010-03-01 – 2011-05-01

Served as the Chief Technology Janitor at Bachmanity, a startup incubator. Responsible for cleaning up messy code, untangling technical debt, and ensuring our servers didn't catch fire.

Stack: Broom, Mop, Duct Tape, Fire Extinguisher, Coffee

- Survived three server meltdowns
- Mastered the art of debugging
